# What is KrishigyanAi ?

KrishigyanAi provides  
autonomous farming robots that  
assist FPOs in:

- Crop monitoring
- Pest & disease detection
- Precision spraying
- Soil & field intelligence

All powered by AI, computer  
vision, and smart sensors  
without replacing farmers, but  
empowering them.

**Transforming  
Agriculture  
with AI**

**Autonomous  
AI Rovers for  
Profitable  
FPOs**

Agriculture Rooted in Data,  
Growing for the Future.

**LUMINOID TECHNOLOGIES  
PRIVATE LIMITED**

## Contact Us

- contact@krishigyanai.com
- A-12, Akash Nagar Colony,  
Borkheda, Kota., Rajasthan  
324002.

# Why FPOs Choose KrishigyanAi

- 30–50% reduction in labour dependency
- 25–40% savings on pesticides & chemicals
- AI-based pest, crop & soil intelligence
- Designed for Indian crops & terrain
- Quick payback within one farming year

## AI Rover Deployment Plan

- **Basic Rover**  
Monitoring, soil alerts & field intelligence
- **Advanced Rover**  
Precision spraying & pest detection
- **Premium Rover**  
Fully autonomous AI farming operations
- **Total Strategic Investment:**  
₹11.5 Lakhs

## Smart & Sustainable Farming

AI-powered farming enables accurate decisions and improves overall farm efficiency.

Optimised use of water and chemicals reduces waste and lowers costs.

- Eco-friendly practices ensure healthier crops and long-term soil fertility.
